Washington, D. C., Nov. 18.—The American reply to the British-French ultimatum relating to the British-French agreement on the Mesopotamian oil region will go forward probably within 48 hours, it was learned yesterday. It is in reply to the explanation of the British government of the terms of agreement which was called for by a protest on the part of the United States, when the British-French agreement became known.

The United States objects to the monopolization of any products of a mandate territory by the government or governments holding the mandate. Washington, D. C., Nov. 18.—Texas National Guardsmen, thousands of whom were organized into brigades under Gov. Hobby's direction during the war, were refused the medal of honor by the War Department. The reason given was that the service for overseas duty, when the medals were awarded, was not entitled to wear the Victory medal, according to secretary of war Baker. The recognition, these Texas guardsmen have received, is that they were all volunteers, will have to come from the War Department. Other states and the District of Columbia have recognized similar situations existing in relation to their national guardsmen raised during the war by giving the officers and men suitable medals similar to the Victory medal. Secretary Baker says that the Texas legislature take suitable action and that medals be given the Texas guardsmen.
